

# *Florida Elementary Music Educators Association*

## **Summer Conference 2018**

July 21<sup>st</sup> (9:00-3:00)

University of Central Florida Campus (Orlando, FL)

### **Angela Leonhardt, Clinician**

Our clinician, Angela Leonhardt is planning a power packed and energizing day of Orff Schulwerk process lessons for our younger musicians. Mrs. Leonhardt's structures will include song, play, poems and literature connections that will engage your students in every single moment of your classroom lessons. "I love sharing, sharing the joy of music with others, be it little people in kindergarten or be it adults. I do lots of adult workshops for other teachers and I just love teaching," Leonhardt said. "Music is so important that brain research shows us how it helps build those connections in the brain, how it supports other things like reading, math and science."

Angela Leonhardt is the music specialist at Hidden Forrest Elementary in San Antonio, Texas. She has also taught music at Bulverde Creek and Longs Creek Elementary with NEISD and at Concordia Lutheran School. Mrs. Leonhardt is a graduate of The University of Texas at San Antonio with a K-12 Music Education Degree. In May of 2003, she completed a Master's in Music Education from UTSA with a specialization in Elementary Music and Assessment Strategies for the Elementary Music Classroom. She also holds three levels of Orff Schulwerk certification from Trinity University and is a certified Orff teacher trainer with the American Orff Schulwerk Association.
